5 gallons (19 lts) Flexible Backpack
Water Extinguisher

Excellent to Control, Mop Up and Extinguish
Grass, Brush, and Forest Fires

Thermowelded Canvas Flame Retardant M2
Tank

No leak QuickConnect System
Plug and Unplug in One Easy Action

Color:

Bright Yellow is the standard color.

Dimensions:

19.3 x 25.6 inch (490 x 650 mm)

Inlet diameter:

Large 3.94 inch (100 mm) polymer cap
for easy refill

Weight:

4.4 lb (2kg)

Capacity:

5 gallons (19 lts)

Construction:

Thermo-welded flexible water tank, made of pvc-coated polyester fabric with a 2.03 oz/sq ft (620 g/m²) flame retardant protective treatment. Durable collapsible reservoir lacquered on both sides. Flexible horizontal baffle inside to reduce shifting. Thermo welded seams for strength and durability. Ideal where a fireproof fabric is needed.

Premium Quality Flexible Fire Extinguisher Backpack

Other Technical Values:

Warp Tensile Strength	250 daN/5cm	EN 1421/V1
Weft Tensile Strength	250 daN/5cm	EN 1421/V1
Warp Tear Strength	25 daN	DIN 53363
Weft Tear Strength	25 daN	DIN 53363
Flex Cracking Test	100.000	DIN 53359 A
Temperature Test	-40°C/+70°C	EN 1876-1
Fire Retardant	M2	UNE 23.727
Fire Retardant	B-1	DIN 4102

NOZZLE

Pump-Nozzle action:

Two stroke piston hand pump nozzle made of chrome plated brass with stainless steel filter on suction inlet. The nozzle tip adjusts from straight stream (jet) to spray (fog). Easy 'no tool' maintenance.

Effective Reach:

Straight stream: > 40 ft (12m)
Fog: > 10ft (3m)

Flow:

0.03 Gal. (120cc) / stroke

ACCESSORIES (not included)

Foam Tube. (Expansion ratio 1 :8)

Polyamide pack for storage and transport
